Setting the standard in class action and complex litigation.

NAMED TO THE PRESTIGIOUS "PLAINTIFFS' HOT LIST" BY *THE National Law Journal* in 2009, Milberg LLP is widely regarded as the country's premier class action and complex litigation law firm, representing individual and institutional investors, pension funds, hedge funds, unions and consumers.

Founded in 1965, Milberg is a legal pioneer in securities class action litigation. Its attorneys have taken the lead in a number of landmark cases that have resulted in groundbreaking legal precedents or policy changes, benefiting both investors and consumers. To date, the firm has succeeded in recovering more than \$55 billion on behalf of its clients—more than any of its peers. Between 2007 and 2009 alone, Milberg achieved more than \$6.8 billion in court-approved recoveries. According to a recent study conducted by The RiskMetrics Group, Milberg was lead or co-lead counsel more often than any other law firm in the 100 largest securities class actions filed since 1996.

Milberg's most recent litigation triumphs include the securities fraud class action against Vivendi, S.A. Major securities cases rarely go to trial, due to the high stakes involved on both sides. But Milberg, representing the institutional lead plaintiff, played a leading role in trying the case to a jury for three months, resulting in the largest-ever verdict of its kind in January 2010.

Milberg has also been instrumental in the effort to bring restitution to the victims of Bernard Madoff's Ponzi scheme, combining its expertise in bankruptcy law and securities litigation. Hundreds of investors worldwide approached the firm for assistance once the truth about Madoff's scheme hit the news. The firm's extensive efforts, including successfully petitioning for Madoff's declaration of involuntary bankruptcy, despite objections from federal agencies, have so far benefited almost all the victims.

Milberg's successful litigation track record can be attributed to a team of highly talented and experienced attorneys, each of whom is a proven leader in his or her respective field of law. Its roster of attorneys includes former judges, federal and state prosecutors, SEC lawyers, regulators and heads of practices at corporate defense firms and several nationally renowned appellate specialists. In addition, Milberg boasts a peerless group of in-house investigative experts, forensic accountants and electronic discovery professionals from various government and law enforcement agencies, the "Big Four" accounting firms and major corporations.
